

# FREQUENTLY ASKED QUESTIONS

## Q: What is a hackathon?

A: A Hackathon (also known as a hack day, hackfest or codefest) is an event that usually lasts for one or two days, in which people with different backgrounds, as (but not restricted to) computer programmers and others involved in software development (graphic designers, interface designers and project managers) collaborate intensively on software and hardware projects.

## Q: What is HACKATHON MOBILITY BCN?

A: : A 4-day hackathon with TechPills that brings together creative and inquisitive minds to develop new services, technology and applications that will improve the driving experience and related services. Developers, designers and drivers will be brought together in the same place for fun and an intense session of co-creation, hacking and collaboration.

## Q: Most hackathons last for just one day.. . Why is this one different from the others? What is a TechPill?

A: A TechPill is a short but definitive training session about something (usually it lasts an hour). We offer you cutting-edge knowledge about mobility, Open Data, Big Data and the state-of-the-art of connected cars, so you can come up with the best ideas with the best tools. HACKATHON MOBILITY BCN is an ambitious project. We will give you knowledge and a full week to think about what you can do! After that, it will function like a normal hackathon.

## Q: When and where will HACKATHON MOBILITY BCN take place?

A: On Campus Nord, Barcelona.

The first day (5th March, 2018) all participants will meet in "Sala Màster", **CAMPUS NORD**. The second there will be formation in different rooms of the Campus Nord.

Check the **full agenda** for updates.

The Second day (9th March, 2018) there will be formation. More info in the agenda.

The third and fourth day (10 and 11 March, 2018) all participants will meet in "Aula àgora", **Campus Nord**.

For more information, read our **agenda**.

## Q: What do I need to bring?

A: Not a lot of stuff:

- You have to carry with you your own ID during the whole event.
- You don't have to worry about any meal. We'll provide even vegan options!
- You can bring any device you think you may need in order to develop your projects. Smartphone and laptops are highly recommended. Anyway, the jury may provide, under their discretion, basic electronic stuff such as Raspberry Pi, Leap Motion...

## Q: What do I need to join?

A: You have to meet the following requirements: You must be at least 18 years old during the days of the event. You must have a technical Background. You have to apply as an individual on this [website](#). Registration starts 21th February, 2018 and ends 3th March, 2018.

During the first day event (5th March, 2018) you we'll have to register as a team (4-6 members). Then, you will have to fill a [form](#) explaining **at least three ideas** of projects you want to develop in our hackathon.

For further information, read our [rules and terms](#).

## Q: Will any help be provided to develop my projects?

A: Sure! You will be able to attend our TechPills. [Read more.](#)

A: Soon resources will be available on our website. Stay tuned.
